

My Future Work

Martin Opršal 9.B

When I was younger, I had no idea what my future work could be. When I started to be better at discgolf, and I also sign my first sponsorship deal. I really thought that I could play big tournaments, travel around the USA and earn money from contracts and tournament results.

But I realized that I would need to be incredibly lucky to accomplish this and it would require a big amount of work. I will do my best to work in the world of discgolf and help to grow the sport, but I should have another plan.

Not long ago, I started to be more interested in web design and development, because I needed a website for my project. This was about a year and a half ago and since that, I consider myself a pretty good web designer. I have a solid knowledge of HTML and CSS, and I'm pretty experienced in WordPress. I do think that this is the right work for me because I

enjoy doing it and I can make a great amount of money with it.
